9. [REDACTED] LEGISLATION Talked with Barbara Mastrick, DEA, concerning the proposed amendment to the Foreign Assistance Act relating to the drug enforcement activities. I told her that we were concerned that the amendment might affect the Agency and asked her to forward a copy of the amendment and their letter objecting to it. She agreed to do so as soon as possible.

10. [REDACTED] LEGISLATION Called Bob Stutman, Congressional Liaison, DEA, to discuss the proposed amendment to the Foreign Assistance Act dealing with drug enforcement. He said there was a good deal of feeling against the amendment and added that

25X1 it had not been introduced in mark-up today. [REDACTED]

24. [REDACTED] LEGISLATION Spoke with Mr. Angarola, White House Domestic Policy staff, concerning the proposed amendment to the International Security Assistance Act (now before the Senate Foreign Relations Committee) that would restrict narcotics control activities by United States employees abroad. Mr. Angarola said the proposal appeared to be supported by Senator Frank Church's (D., Idaho), staff members. Mr. Angarola said the Domestic Policy staff and the Drug Enforcement Administration opposed the proposal, and he noted that a letter to Senator John Sparkman (D., Ala.) from DEA mentioned also the CIA's concerns (DEA had been in touch with [REDACTED] of our staff, on Friday, 5 May). I told Mr. Angarola that the proposal was also of serious concern to us. He said that he would be at a meeting with Senator Church's staff tomorrow and that he would let us know what transpired.

DEA
LEGISLATION Spoke with

Ms. Tracey Cole, OMB, concerning certain provisions in the House and Senate versions of the State Department Authorization bill. Ms. Cole said OMB was working on the various provisions in this legislation and had received indications of opposition from other departments and agencies in addition to our own concern. The addition to the bills of a provision concerning "high-one retirement" for State Department employees could result in a veto threat by the President.

[REDACTED]

LEGISLATION Spoke with

Mr. Robert Angarola, on the White House Domestic Policy Staff, regarding a proposed amendment to the International Security Assistance bill in the Senate concerning narcotics activities abroad by U.S. officers and employees. Mr. Angarola said the amendment apparently was in reaction to an impression by certain Senate staffers that the Drug Enforcement Administration was concentrating too much on enforcement activities abroad rather than intelligence gathering activities, but that, as the proposed amendment had been drafted, it would have a serious negative impact on the ability of all U.S. Government agencies to collect narcotics intelligence abroad. Mr. Angarola indicated that it appeared the proposed amendment in its present form had been killed. We agreed to keep in touch on this.

LEGISLATION Had several discussions

with Mr. Forrest Frank, on the staff of the House International Relations Committee, concerning the Science and Technology amendment, Title V of the State Department Authorization bill, H. R. 12598. We discussed various means of addressing--through bill and/or report language--our concern that, left in its present form, the language could be construed to improperly impact on certain intelligence activities that might involve science or technology matters.

19. ADMINISTRATIVE DELIVERIES Delivered to Audrey Hatry, Clerk, Senate Select Committee on Intelligence staff, two letters from the Director to Senator Birch Bayh (D., Ind.), Committee Chairman, one forwarding an intelligence report and one regarding the United States v. Frank W. Snapp, III civil action, and Headquarters Instruction Sheet #1112 for HR 45 and a copy of a letter to Representative Richardson Preyer (D., N. Car.) from John F. Blake, DDA, regarding FOIA requests for Bill Miller, Committee Staff Director.

20. LEGISLATION Called Mr. David Bushong, on the staff of the Senate Select Committee on Intelligence, regarding a so-called "Chruch amendment" mentioned by Representative Lester Wolff (D., N. Y.) in a meeting between the Representative and the Deputy Director earlier today. Mr. Bushong and I agreed that the reference to a "Church amendment" regarding limitations on intelligence activities abroad by U.S. officers and employees probably was in reference to a proposed amendment to the International Security Assistance legislation recently reported by the Senate Foreign Relations Committee, that related to limitations on narcotics control activities by U.S. officers and employees. Mr. Bushong checked on this proposed amendment and said as far as he had been able to determine the proposal, contrary to its earlier language, would not now have a negative impact on intelligence gathering activities abroad.

21. LEGISLATION Spoke with Mr. Robert Angarola on the White House Domestic Policy Staff, concerning the proposed amendment to the International Security Assistance bill in the Senate that would limit counternarcotics activities abroad by U.S. officers and employees, and regarding which Mr. Angarola and I had had previous discussions. He indicated it was his impression that the proposed language had been modified significantly from its initial form and no longer placed restrictions on intelligence activities abroad by U.S. officers and employees. Mr. Angarola said he would check with the Drug Enforcement Administration and other sources to make sure on this point.

22. [REDACTED] LEGISLATION Received a call from Mr. David Melocek, Drug Enforcement Administration, concerning an amendment in the Senate International Security Assistance bill limiting counternarcotics activities abroad by U.S. officers and employees. Mr. Melocek said he had received a call from Mr. Robert Angarola, White House Domestic Policy Staff, concerning our interest in the language of this proposed amendment. He said the amendment as it now stood placed certain limitations on DEA officers and employees and limited counternarcotics activities by U.S. officers and employees generally only to the extent of participating in the interrogation of U.S. citizens arrested abroad for narcotics activities without their consent.
